

CLOSURE OF FACILITIES

The Superintendent has the authority to temporarily close a school building when an unforeseen natural event or mechanical failure causes a facility to become unsafe, unhealthy, inaccessible, or inoperable. Long-term closure decisions are the responsibility of the Board of Directors. Prior to the long-term closure of a school facility for foreseen circumstances the board shall consider the following issues:

- A. Projected or actual enrollment declines and the likelihood that they shall remain permanent;
- B. The effect that the disposition or retirement shall have on other facilities and on the district's educational program offering;
- C. Student and staff displacement, including transportation costs to new facilities and staff reassignment;
- D. Potential for renovation;
- E. Financial considerations in terms of such factors as staff costs, operating and maintenance cost, the potential revenue from sale or lease of property, the cost of closure and transferring operations elsewhere;
- F. Safety, health and fire regulations; and
- G. Whether or not the facility may effectively be used for other purposes.

During a ninety-day period following the development of a written analysis, the board shall conduct one or more hearings to receive testimony on any issues related to the closure of a school. Each hearing notice shall be published once each week for two consecutive weeks in a newspaper of general circulation which serves the area where the school is located. The last notice shall be published at least seven days prior to the hearing. The notice shall contain the date, time, place and purpose of the hearing. Comments received from interested parties shall be used for advisory purposes only. The final determination of whether a facility shall be closed or remain open shall be made by the board.
