Annually, Mrs. Koth publishes the *Alumni News*. It is a newsletter featuring past Manson graduates. Mrs. Koth contacts alumni and they share what they are currently doing, how Manson helped shape who they are, thank those staff members who made a difference in their lives and finally give YOU, the students, valuable advice. She says, “my favorite part is initially learning about what our prior students are up to these days, but the coolest part is hearing about their journey to get where they are today. So many of these student stories are not linear and they have traversed obstacles and redirected goals for many different reasons. It is just so refreshing when we see these Manson grads doing what they truly love.”

It has become one of my favorite newsletters! If you have not had a chance to read it, stop by the bulletin board outside my office and take a look at this year’s issue or you can also read it at home because it is mailed out to all Manson residents.

I also encourage you go to the QR Code below and read the past issues. Each issue features different graduates with amazing stories. It truly is inspiring!

- Ms. Grageda
