Can you believe this school year is almost coming to an end? Personally, I am excited for summer, but there's still a lot of work to do before the last day of school.

I wanted to give you some helpful tips I found to finish strong!

Here they are:

1. Set goals - Setting goals for yourself both personally and academically will help you stay on track. Whether your goal is to get all As or pass college credit courses, make your own goals and try your best to achieve them.
2. Stay organized - Staying organized will prevent you from losing or forgetting about assignments. Keep

track of your assignments, test dates, in a planner or calendar to stay organized and prepared for upcoming final projects and tests.

3. Don't put off responsibilities - Slacking and procrastinating are just ways of putting off responsibilities. Putting off school responsibilities will leave you scrambling and stressed. Do what you need to do when you need to do it.
4. Remember what you've worked for - It may help to remind yourself of all the hard work you've put in this year. One bad

performance on a final test or project could undo all your efforts for a certain letter grade.

5. Get motivated - It is time to get motivated! Whether you have to bribe yourself with rewards or create penalties for not trying your best, do whatever it takes to stay motivated and beat "summer fever!"

6. Take advantage of the nice weather - As the weather begins to get nicer, you don't have to stay cooped up inside to study. Get creative by studying and doing homework outside instead!
7. Take a time out - Don't forget to take time out of your day to re-group and simply have fun! This will help you stay focused. Giving yourself breaks for fun is good for your sanity and attention span.
8. Adjust your attitude - What is your attitude right now? Are you feeling down? Can you not wait for school to end? Simply adjusting your attitude to be more positive can make an incredible difference!
9. Take care of yourself - Taking care of yourself by eating well, exercising and getting the proper amount of sleep will help you remain focused.
10. Focus on the finish line - Visualize the finish line, and your goals, and focus on that. The school year is almost over, you can do it! Start a countdown, and don't worry, the end is near.

Remember if you need help in any way, we, the staff, are all here for you!
